

Be an active citizen!

What's a ballot?

Ballot: a secret method of voting by means of papers or tokens.

In the 2024 elections, adult citizens will vote for the leaders they want to govern the country. They will receive three ballot papers to vote. Each ballot will be a different colour and have a label that shows what it's for.

The three ballots are:

1. National Compensatory Ballot
2. National Regional Ballot
3. Provincial Legislature Ballot

The **National Compensatory Ballot** and the **National Regional Ballot** are to vote for the 400 members of the National Assembly.

The **National Compensatory Ballot** is to vote for political parties only. Voters select 200 people to be members of the National Assembly.

The **National Regional Ballot** is to vote for political parties and independent candidates in your area. Voters select 200 people to be members of the National Assembly.

The **Provincial Legislature Ballot** is to vote for the political parties and independent candidates in your province for the provincial legislature (government).
